Dear, Lara, Wendy, Eduarn and Bliss.

I am here to write to you guy to thank you guys for helping us around the camp and activities especially especially the High Ropes which should of been very hard to set up and all of that for a couple of kids to play on. My favourite food was the Nachos because of the flavour, and the activities were da bomb, out of all high ropes the Multivine was the funnest because I really like climbing and that was the perfect setting. Out of the normal activities the Orientering was the best because it was like a treasure map so that was quite fun. but the activity I liked the most was Archery, I was just in the zone and the satisfaction was incredible, I only missed two shots. The biggest change for me though was I realized I am a very good archer. Again, thankyou for all your hard work, miss you Bliss.

Yours sincerely  
Divi.
